August 6, 2013

Herein I am submitting in 13-140 and 08-65 all the filings I have posted into 12-201 with the exception of the IRFA and ex parte contact from yesterday.

I filed comments in 12-201 without realizing I should also have posted into 13-140 and 08-65. I now realize I should have cross filed everything in all three captioned proceedings. As a pro se petitioner, I hope to be excused for the lapse. Since all submissions were sent to 12-201, they are posted to the public and should have been noticed by interested parties. Therefore I hope this late posting into 13-140 and 08-65 would not affect the ability of interested parties to respond.

Postings here include the original final posting of comments, a review of past history of relations between Fireweed, myself, and OMD, and one ex parte which includes suggested language for two new rules which would somewhat ameliorate the inequities in the present fee system and allow Fireweed to continue to serve the public AND be in compliance with FCC rules.
